Values

Critical mindset and troubleshooting capabilities.

Upholds ethical conduct in performing security activities.

Interest in Cyber Security

Brijen has been fascinated by the field of cybersecurity for many years despite having no direct previous professional experience in it. He is particularly interested in analyzing issues and vulnerabilities to ensure the security of systems and data. He is eager to secure an entry-level cybersecurity position that allows him to utilize his drive and thirst for knowledge. Brijen believes that obtaining the Google Cybersecurity Certificate will enhance his candidacy and provide him with the necessary professional skills to succeed in the field.

Professional Statement

Hello, I'm Brijen Shah, and I am deeply passionate about ensuring the security and integrity of digital systems and data. With a strong foundation in programming languages and hands-on experience in web and mobile development, I am equipped to understand the intricacies of security processes and vulnerabilities. My values of critical thinking and ethical conduct drive me to approach security challenges with precision and integrity. Despite lacking professional experience in cybersecurity, I am committed to continuous learning and growth in the field. With a post-graduation in Cybersecurity and Threat Management and a firm belief in continuous learning, I am eager to pursue an entry-level cybersecurity position that will allow me to further develop my professional skills and contribute to the security goals of organizations. My post-graduation in Cybersecurity and Threat Management, Hardware & Networking, along with my graduation in programming, underscore my dedication to pursuing a career in cybersecurity. I am eager to leverage my skills and knowledge to contribute to the security goals of organizations while furthering my professional development through the Google Cybersecurity Certificate.
